JSC GUARDMAX

PREMIUM ESSENTIAL OIL BLEND FOR
POULTRY, AQUACULTURE, AND LIVESTOCK
QUALITY FEED FOR POULTRY,
SUPERIOR NUTRITION FOR YOU, AND
AN ENHANCED QUALITY OF LIFE!

Product Overview

JSC GuardMax is an innovative essential oil blend formulated to enhance the health and productivity of poultry, aquatic species, cattle, and pigs. This multifunctional product leverages the potent properties of essential oils to regulate the digestive and respiratory tracts, providing comprehensive health benefits.

- Improve feed intake
- Stimulate digestive juice secretion for better nutrition usage
- Provide anti-bacterial, anti-coccidia, and antioxidative effects
- Reduce oviduct inflammation and enhance egg quality

Active Components

- Cinnamaldehyde: Known for its antimicrobial and digestive stimulating properties.
- Thymol: Offers potent antibacterial and antifungal effects.
- 1,8-Cineole (Eucalyptol): Enhances respiratory health and provides anti-inflammatory benefits.
- Carvacrol: Acts as a strong antimicrobial agent.
- Eugenol: Provides antioxidant and anti-inflammatory properties.
- Menthol: Soothes and supports respiratory function.
- Carrier: Precipitated Silica / Silicon Dioxide.

KEY FEATURES AND BENEFITS:

- **Improved Digestibility:** Facilitates better nutrient absorption and feed efficiency, leading to enhanced growth rates in poultry, fish, shrimp, cattle, and pigs.
- **Antimicrobial Effects:** Effectively combats harmful bacteria, fungi, and parasites, thereby lowering disease occurrence.
- **Respiratory Wellness:** Promotes the health of the respiratory system, helping to reduce respiratory illnesses.
- **Anti-inflammatory and Antioxidant Properties:** Alleviates oxidative stress and inflammation, fostering overall well-being and quicker recovery from sickness.
- **Immune Enhancement:** Boosts the immune response, increasing resilience against infections and diseases.
